Elder Abuse

• Advocacy on behalf of individuals
• Sponsored the “Faces of Elder Abuse” Provincial Conference, May 2004
• Facilitated development of Provincial Strategy on Elder Abuse, 2005
• Elder Abuse Committee of NL (EACNL)
• Received funding to develop Community Response to Elder Abuse, 2006
Project goal

To design and recommend a coordinated, seamless community response to meet the needs of abused seniors and those that support them, regardless of the time, location, or nature of their circumstances.
This model….

• Is a way to enhance service delivery to seniors who are experiencing abuse.

• Encompasses seniors living in the community and in long-term-care homes.

• Has components which cover:
  – Education
  – Intervention
  – Choice
Why is it needed?

Today…

• Seniors aren’t always aware of who to go to for help
• The services offered to an abused senior depend on where he/she lives
• There is no official way for organizations to work together to support an abused senior
• There is presently no way to capture statistics on elder abuse.
How we developed our model

• Studied existing models and pulled out elements that we could use and/or adapt

• Developed the model with the expertise of the Elder Abuse Committee of NL

• Sent the model to stakeholders in both the government and community and asked for feedback

• Did community consultations to gather feedback on how to improve our model
Our Stakeholders include:

- Department of Health and Community Services, Aging and Seniors Division
- VPI (Provincial body and Regional Coordinating Committees)
- Regional Health Authorities
- Nunatsiavut Government, Department of Health
- Innu Health Commissions
- Labrador Metis Nation
- RCMP and RNC
- Community groups represented by the Elder Abuse Committee of NL
Overview of our consultations

- Visited 26 communities
- Did over 35 consultations
- Spoke to over 400 people

Other issues of concern

- During our consultations we heard other issues of concern from seniors. These include:
